- ✓ F2+ is an F2 on steroids! Heavier, stronger and engineered for up to 70 cm large logs.
- ✓ Saw long, saw heavy, it's all good! Essential parts are oversized for more space and weight, and you can easily extend the sawmill.
- ✓ With over 30 years of experience in the industry, the sawmill has been refined down to the smallest detail.
- ✓ Removable guide rail makes the sawmill easy to store and transport.

GRINDLUX BLADE GRINDER INCLUDED WHEN BUYING A BAND SAWMILL!

NEW! Logosol launches B1001 Hydraulic

Swedish
Quality Design

The sawmill in the photo is fitted with additional equipment.

Logosol's fully hydraulic sawmill B1001 Hydraulic is an absolutely fantastic sawmill that gives you control of the entire sawing process from the control unit. This gives you an efficient and comfortable sawing experience. You can effortlessly lift logs off the ground and rotate them into the correct position. Being able to easily handle logs up to 2000 kg is a fantastic experience. A wise choice for those who want a first-rate band sawmill that is a pleasure to use!

- ✓ You can entirely load, position, lock and rotate logs using the hydraulics.
- ✓ Control sawing from the control unit and avoid all that heavy lifting.
- ✓ The system's control unit is designed for optimal ergonomics and good visibility when sawing by being adjustable, both vertically and horizontally.
- ✓ You can buy a complete sawmill with hydraulics or buy the hydraulics later.

The world's best hydraulic band sawmill!
Quality in every detail.

- ✓ The hydraulics are engineered for heavy logs up to 2000 kg, i.e. the same size logs the band sawmill can handle.
- ✓ User-friendly design with integrated functions. A stable and stylish sawmill!
- ✓ Swedish-made band sawmill of Swedish steel with quality in every detail. Materials and component selections that you normally only find on industrial machines.
- ✓ Keep in mind that this is a machine with a long service life. With industrial quality of essential components and durable materials, maintenance is minimal.

- ✓ **Included as standard with B1001 Hydraulic:** 2 log supports, 1 log clamp, 2 toe boards, 1 log rotator, 1 extension, 4 pairs of support legs, 1 band saw blade, levelling feet, adjustable blade guide & water cooling!

- ✓ Log loader can be added, see page 10!

ORDER
NOW, HIGH
DEMAND!

User-friendly, high-quality multi-head planer for sawmill owners & carpentry shops

- ✓ More planer for your money! An affordable planer and accessories that give you a complete solution at a great price.
- ✓ Easy and quick to install knives. Ideal when producing short runs.
- ✓ Make money on your planer from day one; it is very profitable. The prices of most timber products are rising, and this means that your planer is worth its weight in gold in your construction projects.
- ✓ The customers who have used the machine are very satisfied. We at Logosol are proud of the quality and precision of the machine, and love that it is easy and fun to use.

Included with the CH3:
Planing knives in all cutters, toolkit, in- and out-feed tables, setting block for planing knives & spacers!

Scan the QR code with your mobile for more info and **technical data** about CH3.

10% DISCOUNT ON ALL KNIVES!

- ✓ Produce mouldings, panelling, round rods and beams for fun projects when you want to renovate your home or build on the farm.
- ✓ A wide selection of moulding knives! You can also order custommade knives for your own profiles.

EASY TO FIND THE RIGHT KNIVES ON THE WEBSITE

We guide you to the right knives for your needs at logosol.com

Search and filter by:

- ✓ Type of planer
- ✓ Combination of knives
- ✓ Type of finished product (joists, skirting boards, cornices, etc.)
- ✓ Size of the knife
- ✓ Name of the knife
- ✓ SKU number

You can also easily order unique moulding knives that suit your needs!

Carefully selected knives that will come in handy

Starter package with knives for the CH3

The package includes: 8 pairs of moulding knives of HSS and 2 pairs of gibs. The starter package allows you to produce a wide range of profiles, such as: bevelled edge T&G, rounded T&G, swan neck cornice, cove crown, joists, decking, rounded edge casing with swan neck profile, bevelled edge casing and T&G.

DO YOU NEED A WOOD DRYING KILN?

If you answer yes to any of the following questions, you are in need of a wood drying kiln.

WOODWORKERS AND CARPENTERS

- Do you need furniture-dry wood?
- Do you want to prevent your woodwork from cracking or warping after it is finished?
- Do you have the opportunity to get hold of unusual sorts of wood that you want to use when doing woodwork?

SMALL-SCALE SAWYERS

- Do your customers ask for timber with a moisture content of under 18%?
- Do you want shorter delivery times?
- Should the wood have a more uniform moisture content?
- Do you want tension- and crack-free wood?

Scan the QR code with your phone for more info and technical data about drying.

WARRANTIES FOR A SAFE BUY

When you buy a new machine from LOGOSOL, you receive a 2-year warranty. Here we could have set out the warranty terms that are in the catalogue, but we say for the sake of simplicity that we always try to be really understanding if something goes wrong. We believe that it's best for everyone in the long run if you continue to be completely satisfied with your Logosol machine.

2-month money-back guarantee – as it should be! When you get your new machine, you can take plenty of time to test it and make sure that it meets your expectations. Run the machine. Saw or plane a larger volume to see if it works as expected. We're not afraid to take back a machine with a little sawdust. You will only have to pay for the cutting equipment you've used and return shipping. That's all.

Watch videos and see complete product information at logosol.com.

NOTE! The given prices are valid until 10th of June 2022 or while stocks last. Errors and misprints are reserved. All prices are excl. VAT and delivery.
