INTRODUCTION PRICE!

**THE PLANER
YOU'VE BEEN
WAITING FOR!**

User-friendly high-quality multi-head planer for sawmill owners & carpentry shops

- ✓ **More planer for your money!** An affordable planer and accessories that give you a complete solution at a great price.
- ✓ **Easy and quick to install knives.** Ideal when producing short runs.
- ✓ **Make money on your planer from day one, it is very profitable.** The prices of most timber products are rising, and this means that your planer is worth its weight in gold in your construction projects.
- ✓ **The customers who have used the machine are very satisfied.** We at Logosol are proud of the quality and precision of the machine, and love that it is easy and fun to use.

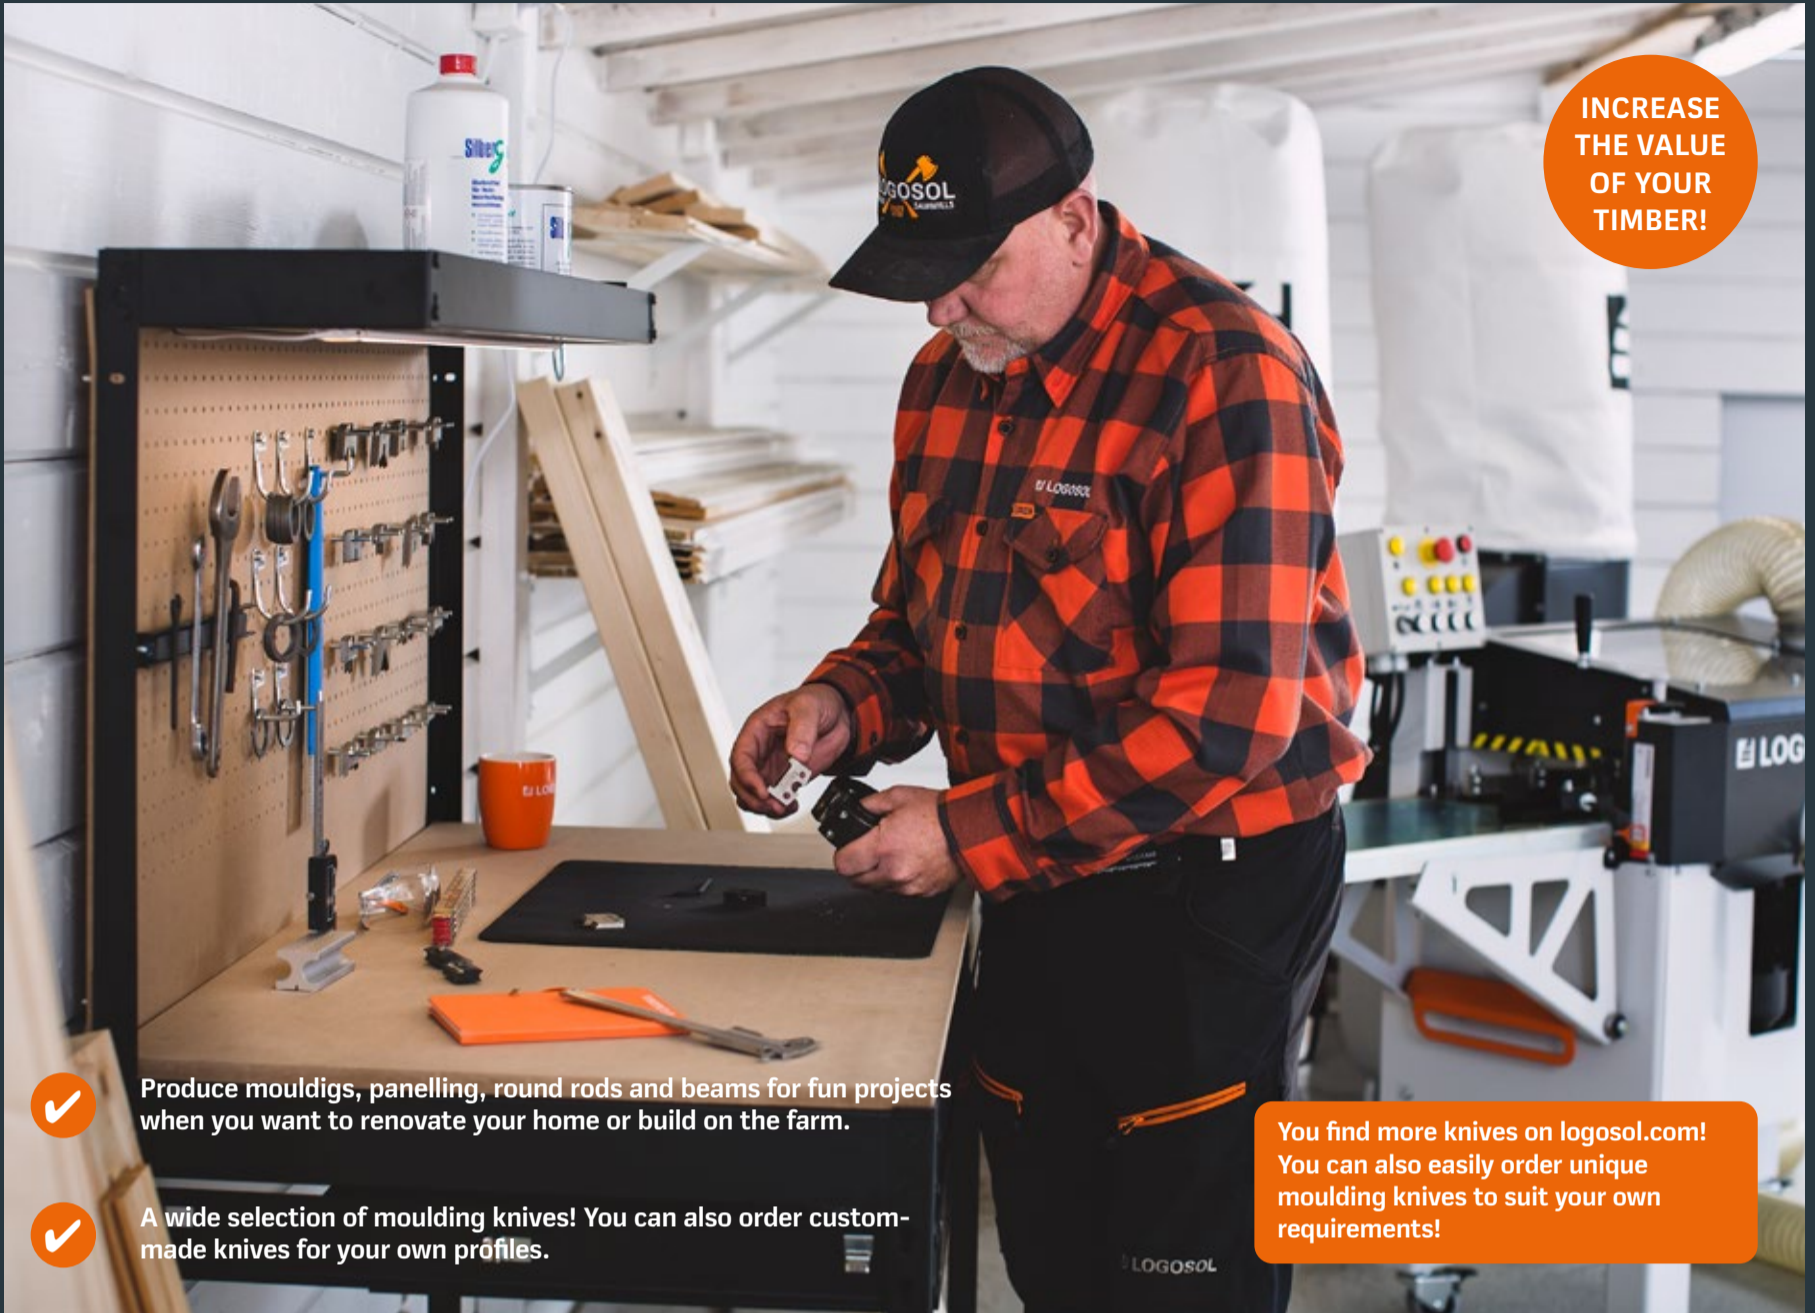

Included with the CH3:
Planing knives in all cutters,
toolkit, in- and out-feed tables,
setting block for planing knives
& spacers!

Scan the QR code with
your mobile for more
info about CH3.

**INCREASE
THE VALUE
OF YOUR
TIMBER!**

Produce mouldings, panelling, round rods and beams for fun projects when you want to renovate your home or build on the farm.

A wide selection of moulding knives! You can also order custom-made knives for your own profiles.

You find more knives on logosol.com!
You can also easily order unique moulding knives to suit your own requirements!

Starter package with knives for the CH3

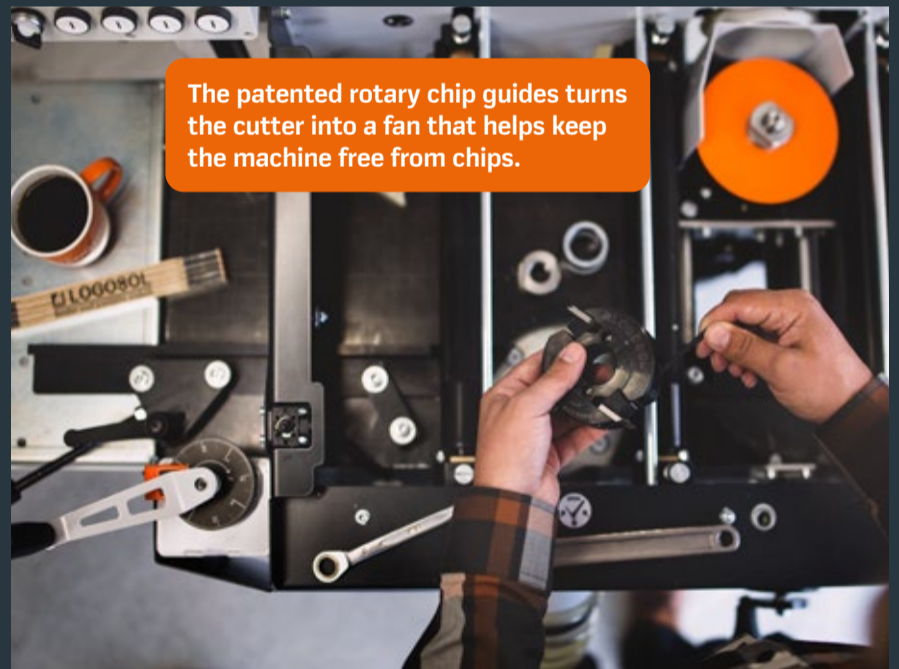

The package includes: 8 pairs of moulding knives of HSS and 2 pairs of gibs. The starter package allows you to produce a wide range of profiles, such as: Bevelled edge T&G, Rounded T&G, Swan neck cornice, Cove crown, Joists, Decking, Rounded edge casing with swan neck profile, Bevelled edge casing and T&G.

NEW! LOG TABLE KIT – DIY FOR LOGOSOL SAWMILL

Log table kit – DIY for Logosol sawmill

Build a solid log table with smart fittings from
Logosol. Make the boards yourself with your own
sawmill. A good log table makes work with chain
sawmills easy and ergonomic. The logs are at the
right height and the log rollers make it easy to
move the logs lengthwise.

€299

SKU 9999-000-1480

**GET READY
FOR
SAWING!**

Log roller with holder

From the log roller, logs are easily rolled
onto the log bed. The log roller with holder
is mounted on the crossbar in front of the
log bed in front of the saw to shift the log
sideways. Use multiple log rollers to set up
an assembly line to suit your needs.

Why you should buy your band sawmill from Logosol:

1. Extremely sturdy and good-looking sawmills in premium quality. We only build sawmills that we and our customers are proud of.
2. You're quickly up and running! Preassembled saw head and easy setup of your sawmill.
3. The saw head is adjusted with powerful chains in precise steps. Ensures identical dimensions through the entire log.
4. Adjustable and deluxe blade control that everyone wants for great results.
5. The band wheels are combined fan wheels that blow away sawdust, keeping things clean and cooling the blades. These super-strong, lightweight wheels provide quick saw blade acceleration.
6. Swedish design and manufacturing with carefully engineered integrated functions and smart design. 30 years of experience in sawing timber and developing sawmills. With a sawmill from Logosol, you'll be a pro straight away.
7. Patented log clamps with eccentric clamping that hold the log in an iron grip.
8. Appreciated Last Cut indicator on the scale that remembers your last saw cut and serves as a reference for the next.
9. A community you want to be part of. Fantastic customers around the world who inspire, engage and shine. Welcome to the world of Logosol!

NEW! Logosol launches B1001 Hydraulic

Swedish
Quality Design

Logosol's fully hydraulic sawmill B1001 Hydraulic is an absolutely fantastic sawmill that gives you control of the entire sawing process from the control unit. Sawing is not only efficient, it's also prevents wear and tear on your the body.

You can effortlessly lift logs off the ground and rotate them into the correct position. Being able to easily handle logs up to 2000 kg is a fantastic experience. A wise choice for those who want a first-rate band sawmill that is a pleasure to use!

- ✓ You can entirely load, position, lock and rotate logs using the hydraulics.
- ✓ Control sawing from the control unit and avoid all that heavy lifting.
- ✓ The system's control unit is designed for optimal ergonomics and good visibility when sawing by being adjustable, both vertically and horizontally.
- ✓ You can buy a complete sawmill with hydraulics or buy the hydraulics later.

B1001 Hydraulic

VALUE

€450

The world's best hydraulic band sawmill! Quality in every detail.

- ✓ The hydraulics are engineered for heavy logs up to 2000 kg, i.e. the same size logs the band sawmill can handle.
- ✓ User-friendly design with integrated functions. A stable and stylish sawmill!
- ✓ Swedish-made band sawmill of Swedish steel with quality in every detail. Materials and component selections that you normally only find on industrial machines.
- ✓ Keep in mind that this is a machine with a long service life. With industrial quality of essential components and durable materials, maintenance is minimal.

Included as standard with B1001 Hydraulic: 2 log supports, 1 log clamp, 2 toe boards, 1 log rotator, 1 extension, 4 pairs of support legs, 1 band saw blade, adjustable feet, adjustable blade guide & water cooling!

Scan the QR code with your phone for more info and **technical data** about B1001 Hydraulic.

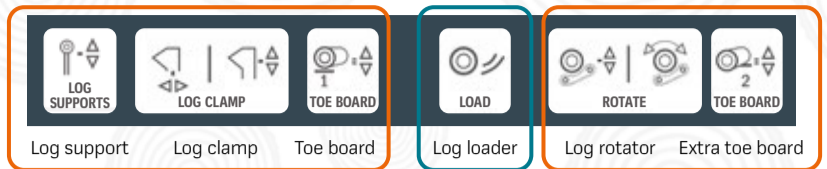

Control unit and hydraulic unit (included)

Swivel panel, adjustable vertically and horizontally for easy monitoring during loading and sawing. Fully readied for integration with Smart Set so you can control everything from the same panel.

- Hydraulic log handling package can be purchased without Smart Set.

Control unit functions:

Log supports (included)

The 300 mm high log supports are easily controlled from the control unit. They are mechanically connected, which provides the advantage that they are always set to the same height.

Toe boards (included)

To set the saw cut parallel to the core of the log and get a straight cut along the log's fibres to maximize yield. Also has powerful log rollers so you can position the log longitudinally on the sawmill.

Log rotator (included)

With motorized serrated chain to rotate the log to the best position for optimal saw yield.

Log loader (option)

Two powerful arms that lift logs from the ground up onto the saw bed.

Trailer kit with support legs (option)

Make your hydraulic sawmill mobile. Launch in 2022.

Log clamp (included)

Hydraulically controlled arm that pushes logs against the log support. It can also turn logs or blocks.

Log loader
Two powerful arms that lift logs from the ground up onto the saw bed.

A super sawmill from Logosol

Logosol is now launching band sawmill B1001 with hydraulic log handling, a highly anticipated product development. We have a talk with Jonas Höglund, who is in the process of loading a log onto the sawmill at Logosol's demo area in Härnösand.

For years, customers from all over the world have been asking for a hydraulic sawmill from Logosol, which has been building its own band sawmills in Härnösand since 2017.

"After giving it a lot of thought, we have now built and repeatedly tested and evaluated the sawmill, and we've now reached the finish line with an absolute world-class hydraulic band sawmill. Quality in the highest class sometimes has to take a little more time," Jonas says.

The sawmill is built for logs up to 2000 kg and the hydraulics are designed in the same robust way. As an example, the log tensioner alone weighs 70 kg.

"Customers who have tried other band sawmills feel the difference when

Jonas Höglund, R&D Manager at Logosol.

they grab onto a Logosol sawmill and give it a good shake. It's a really sturdy sawmill with a robust construction," says Jonas.

Jonas is at the controls and easily picks up a rough log from the ground. "It's a great feeling being able to lift a log weighing 2000 kg with a simple touch of a lever. You feel like a superhero," says Jonas, quickly and smoothly rotating the log to the right position on the sawmill.

"We've made a sawmill that you can feel really proud of. We're looking forward to delivering this sawmill to our customers around the world," says Jonas in closing, sawing the log into fine boards.

WARRANTIES FOR A SAFE BUY

When you buy a new machine from LOGOSOL, you receive a 2-year warranty. Here we could have set out the warranty terms that are in the catalogue, but we say for the sake of simplicity that we always try to be really understanding if something goes wrong. We believe that it's best for everyone in the long run if you continue to be completely satisfied with your Logosol machine.

2-month money-back guarantee – as it should be! When you get your new machine, you can take plenty of time to test it and make sure that it meets your expectations. Run the machine. Saw or plane a larger volume to see if it works as expected. We're not afraid to take back a machine with a little sawdust. You will only have to pay for the cutting equipment you've used and return shipping. That's all.

Watch videos and see complete product information at logosol.com.

NOTE! The given prices are valid until 31st of January 2022 or while stocks last. Errors and misprints are reserved. All prices are excl. VAT and delivery.

All prices exclusive VAT and shipping. You can pay in instalments over 12 months at 0% interest. The prices apply until 31

January 2022.
